It was 2012 that four longhaired lads from Zürich started a band that completely dedicated itself to the sound of 80's Rock. More than 80 shows later they are more determined than ever to reach out to both old and new fans with their original high-powered Music.

They recorded their first album in 2013 at the famous Tonmanufaktur Studios in Zürich. They were bold enough to call it "**Greatest Hits**".

Two years later with the help of **V.O. Pulver (Gurd, Poltergeist, Pulver and Panzer)** at Little Creek Studio they produced and eventually released the album **Wild! Wild! Wild!**.

Then after some internal changes in 2016 including the addition of a second guitarist, **King Zebra** had to say goodbye to it's singer Tom Hoochy Coo. One year later, **Eric St. Michaels** joined. With Eric's longtime career as front man and shouter for the rock band **China**, this native-born American from New Jersey brought a distinctive voice and has contributed significantly to the newly defined sound of **King Zebra**. The first release with the new lead singer was called "**Bad Idea**".

In 2019 will find Eric St. Michaels, Lauer, Jerry, Ben and Michael on stage together and ready for action. Ladies and gentlemen, we loud & proudly present: **King Zebra!**
